COVID 19: A Lithuanian manufacturer of protective single-use and reusable clothing is looking for distributors and is offering manufacturing services	Business Offer BOLT20200609001	The textile company from Lithuania is specialized in the production of protective single-use and reusable clothing: gowns, overalls, aprons, hoods, masks. The company is seeking to expand with products abroad more, therefore, is looking for trade intermediaries to work under a distribution services agreement and is offering to potential partners a manufacturing agreement as well. It seeks to find new business partners: other sewing companies, protective clothes final users (hospitals, laboratories, food processing companies, etc.). The company is willing to offer its services under manufacturing agreement . The company is looking for trade intermediaries (protective clothes distributors, pharmacy nets, hospital suppliers, etc.) for its manufactured products as well and is offering to work under a distribution agency agreement . Long-term cooperation and keen knowledge of the local market are preferable.	Clicca qui Sei interessato al profilo? Scrivi a een1@confindustria.lombardia.it

<p>Technology solutions allowing the maintenance of Safe Operating Procedures, including social distancing on construction sites in response to the COVID-19 pandemic</p>	<p>Tech. Request TRUK202 00506001</p>	<p>A Scottish (UK) based publicly funded organisation working with companies across the built environment sector is seeking technology based solutions to help maintain Safe Operating Procedures on construction sites, including means to work at a safe distance. Ideally these solutions will also incorporate other features to assist with the management of safe operations. The organisation seeks research or technical cooperation agreements or commercial agreements with technical assistance. The organisation seek to source product, service and technology solutions suitable for further development, demonstration or delivery within the built environment. Through its core activities of facilitating engagement between industry, academia and the public sector, it can enter into technical or research cooperation agreements or provide access to suitable partners with suitable technical assistance.</p>	<p>Clicca qui Sei interessato al profilo?
