Who we are

When purchasing a service **the buyer should be able to easily verify its actual market price and who are the best providers selling it.** That's true also in case of a company that has to purchase legal or tax professional services. On the other hand, providers with experience, skill and know-how, should be easily available to potential clients and be able to compete to be chosen. These are the targets that led 4cLegal to the creation of an online competitive process going by the name of **"Digital Beauty Contest": quality legal service, transparency** in the choosing process and purchase at the actual market conditions are the key principles to this polite revolution. **Our mission is to establish the Digital Beauty Contest as the market's best practice.** All the operators are invited to be part of the Legal Market 4.0 as protagonists.
