

aizoOn is a **global technology consulting company** focused on innovation.

Its **Vision** is to use the scientific method and keep focus on data-driven decisions to enable a more responsible and sustainable society.

Its **Mission** is to support customers in their journey through the digital age, bringing strong know-how in technology and innovation.

Through its partnership **Digital Food Ecosystem**®, aizoOn brings together several know-hows in Science, Math and Technology to provide a distinctive proposal for Industrial End-Users, Original Equipment Manufacturers, Retailers, Consumers and the Society as a whole.

We design and build **digital platforms** (hardware software) based on the **Industry 4.0** paradigm for the improvement of product safety and quality, process quality and guarantee of origin.
