

Leading the way to greener
and smarter mobility,
worldwide

(Who we are)

Alstom commits to contribute to a low carbon future by developing and promoting innovative and sustainable transportation solutions that people enjoy riding.

With its presence in 63 countries and a talent base of over 80,000 people from 175 nationalities, the company focuses its design, innovation, and project management skills to where mobility solutions are needed most.

Deeply rooted in the Italian railway tradition, Alstom in Italy has been manufacturing trains for 160 years, signalling equipment for 90 years and traction systems for 60 years. Today, with 9 sites throughout Italy and more than 4000 employees, Alstom is a strong local employer recognised as one of the leaders on the Italian market.

(Product description)

From high-speed trains, metros, monorails, trams, to turnkey systems, services, infrastructure, signalling and digital mobility, Alstom offers its diverse customers the broadest portfolio in the industry.

In Italy, Alstom presents all its business lines, from rolling stock to signalling, to infrastructure and electrification, to turnkey systems up to service solutions.

Alstom in Italy has two global competence centres: one in high-speed trains Avelia Pendolino and in regional single-decker trains Coradia Stream; and one in railway signalling equipment and systems.
