

# C.M.R. S.r.l.

## Who we are

**C.M.R.** has been on the market for almost fifty years. Specialized in the design and construction of presses and plants for the **rubber industry**. Our company has also designed and built presses and plants for many other sectors including the **plastic laminate industry**. We are structured to be autonomous **from the project to the final testing of the product**, guaranteeing the versatility. It is also supported in every department by modern equipment used by qualified operators and coordinated by technicians attentive. The final quality of the product is the result of the rigorous controls carried out in all the production processes and from the certified quality materials adopted.
