

## **COVERPLAST sas**

Paints and nanotechnological solutions for your  
needs

*Our company was founded in 1972 as paint manufacturer with the name of **Coverplast**. The careful development and the tireless pursuit of quality have immediately distinguished our products allowing us a progressive widening of the offer and activities. Today the integrated skills of COVERPLAST offer silane based on hybrid crosslinkers. IPMS is the core of our new Si / PUR technology a hybrid crosslinker. In fact, our company performs every single processing phase: from design to quality control to packaging and logistics. Thanks to this rigid process control and the absolute customization of production, we have obtained ISO 9001/2000 certification and the implementation of OHSAS 18001.*
