Our production

“Cozzi s.r.l.” is specialised in the production of high precision parts, up to \varnothing 70 mm in case of bars and up to \varnothing 130 mm in case of starter bars.

The company produces pieces – in most metals - with extreme precision through up-to-date CNC sliding and fixed headstock machines as well as grinding machines including one with technology Studer. In total, more than 40 CNC machines.

It delivers finished products (as for example shafts, flanges and valves) including heat and surface treatments.

The company has an up-to-date Quality department with 3D measurement technology Zeiss and certified UNI EN ISO 9001:2015.
