

Energean Italy S.p.A

Delivering the Energy Transition in the Mediterranean

ASSOLOMBARDA

Filiera Energy Sustainable Global Chain

Energean Italy is the subsidiary (fully owned by Energean Plc) in charge of the E&P and energy transition activities in Italy, being the 3rd Italian larger gas producer, with a portfolio of about 50 mining titles, onshore and offshore, along the Country.

The Energean Group operates in 7 Countries across UK North Sea and Mediterranean becoming the leading independent, gas-focused E&P company, with a strong production and development growth profile.

The Group explores and invests in new ideas, concepts and solutions to produce and develop energy efficiently, at low cost and with a low carbon footprint.

With a strong track record of growing gas reserves, Energean is focused on maximizing production from its gas-focused portfolio.

ESG and health and safety are paramount to Energean; it aims to run safe and reliable operations, whilst targeting carbon-neutrality across its operations by 2050.
