

ENERGY DRIVE SRL

LIVE GREEN FOR A SMART FUTURE

ASSOLOMBARDA

Filiera Energy Sustainable Global Chain

Energy Drive was born in 2009. Our goal is to build over time an organization able to offer the customer an accurate service with excellent quality standards in all sectors of the Green Economy. The Company deals with the analysis, design and implementation of energy saving projects for families and companies. The territorial expansion through the branches in Milan, Rome, Naples and Cagliari, was followed by a parallel development in the various markets of green mobility, home automation and bio-architecture.
