

## Who we are

In the **agri-food sector**, 1 over 2 companies is in fact at risk or vulnerable and it is established that out of 100 companies that are in difficulty, 70 had visible warning signs even 5 years earlier (Bocconi - Cerved)

Turnaround is a discipline aimed at preventing and solving business critical issues.

Entriage interprets the warning signs of a company and then intervenes with a corporate Turnaround.

Entriage brings together a highly qualified group of specialists and managers, also coming from the **food sector**.

## Service description

### Business alert

comparable to the blood test for your company, it highlights those warning indicators to prevent a crisis risk.

### Triage Test ©

The Triage Test projects when and how intensely a corporate crisis could occur if no action is taken in time. It measures gravity and urgency and shape the intervention

### First Turnaround Intervention

aims to bring the company back into economic / financial balance in a short time and operates on 3 parallel levels:

1. Tactical turnaround
2. Industrial Turnaround
3. Financial Turnaround
