EXALTECH SRL
This is not a simple Software House

**ASSOLOMBARDA**
Filiera Agroalimentare

Who we are

We are a special team of young Software Engineers specialized in the development of technological solutions that make your business grow! We've acquired our expertise and technological know-how through successful collaborations with Johnson & Johnson, Novartis Vaccines & Diagnostics, Decisyon, Kubique, Sapienza University of Rome and many others.

What we are

We support our partners in the international development and project management of Software; especially that which facilitate production processes and decision making in the manufacturing world. But not only.

We deal in:
- Custom Software Development
- Industry 4.0 Solutions
- Business Process Reengineering
- Team Support and Project Management
- Prototyping of graphical interfaces
- Feasibility studies
- Corrective and preventative maintenance solutions
- Technical mentoring for start-ups
