### Environment & Energy:

Strategic sectors for the future of the world

**Engineering & consultancy** company  
With **20 years of experience** in:

Decreasing and managing environmental impacts

Assisting enterprises and public entities  
Finding sustainable technical & management solutions.

We deliver Energy Assessments for infrastructure, public and private buildings, and we design consequent energy efficiency projects.

We lead Energy Management initiatives to optimize energy technical and economic management, and we design renewable energy plants (e.g. solar panels).

We promote the creation of Renewable Energy Communities and we manage their development, to contribute to climate change mitigation and to reduce energy poverty.
