From data to sustainable value

Intellico srl
## (From Data to Sustainable Value)

ASSOLOMBARDA
Filiera Energy Sustainable Global Chain

Who we are

Intellico is the go-to provider AI-enabled Asset Management solutions for enterprises that want to rethink their way of managing and optimizing their assets base

We build and invest in Asset Management Software (e.g., machineries, buildings, batteries, knowledge base) for the industrial, real estate, and infrastructure sectors

Our Products

<u>Our portfolio of AI-enabled platforms can cover several use cases and the list is growing:</u>

- Predictive Maintenance for industrial assets and buildings
- Energy Consumption Optimization
- ESG Monitoring & Benchmarking
- Learning from Users' Interaction
- Electric batteries' lifecycle optimization
