

NITROLCHIMICA S.p.A

We transform waste into a resource

Since 1975 NitrolChimica has been dealing in solvent recovery and hazardous waste disposal and is a leader in its field for quality, technology and diversification of treated and recovered materials. We have a clear vocation :” Transforming waste into a resource”, a philosophy that permeates every action and guides the company’s production choices, in fact, has chosen not to adopt a conventional disposal to favor technologically advanced process capable of separating solvents, metals and plastics for recovery purposes and then refining them and re-introducing into supply chain as raw material. The processes used by NitrolChimica allow significant advantages in environmental terms (CO2 emissions) and in the saving of fossil resources.
