

Openstage

OPEN STAGE S.R.L.

Entertainment for Smart Cities

ASSOLOMBARDA

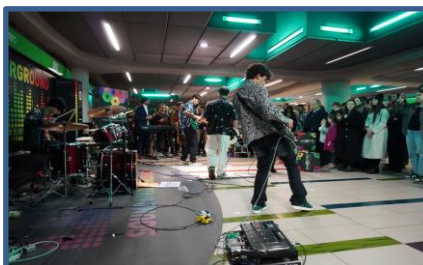

Filiera Attrattività

Who we are

Openstage is a revolution in urban entertainment. A totem that can be booked through an app and allows artists to create a real live event by providing all the audio equipment (mixer, sound system, power outlets, IoT sensors) free of charge in public and private spaces. The project's goal is the democratization of music, promoting practical and tangible opportunities for young artists to showcase and emerge.

Product description

Openstage totems are innovative urban furnishing technologies for modern artistic and cultural entertainment, equipped with an audio system including mixers, speakers, power outlets, and IoT sensors. They are customizable in shape and design.

The **Openstage app** and **web app** enable users to create their profiles and book available slots on both Openstage totems and virtual locations (basic public spaces provided but not equipped) for street art performances.
