

## **Who we are**

*Romagnani Stampi is a family owned company, we started in 1969.*

*Design, research, and development: this is what we do.*

*We work in the field of injection and compression molds for plastic materials.*

## **Product description**

### Claim/production description

Over the years we have become highly specialized in the automotive sector and in particular in the production of molds for large external aesthetic components, in particular: bumpers, spoilers, grilles, and side panels.
