

### Who we are

Schneider Electric is leading the Digital Transformation of Energy Management and Automation in Homes, Buildings, Data Centers, Infrastructure and Industries.

With global presence in over 100 countries, Schneider is the undisputable leader in Power Management – Medium Voltage, Low Voltage and Secure Power, and in Automation Systems. We provide integrated efficiency solutions, combining energy, automation and software.

In our global Ecosystem, we collaborate with the largest Partner, Integrator and Developer Community on our Open Platform to deliver real-time control and operational efficiency.

We believe that great people and partners make Schneider a great company and that our commitment to Innovation, Diversity and Sustainability ensures that Life Is On everywhere, for everyone and at every moment.

### Product description

#### Project Application Services Operation

The Project Application Services operation forms our engineering backbone and involves the implementation of Process Control Systems, DCS, SCADA, RTU ,ESD, F&G,OTS, IT, Field Devices and OT systems projects from pre-order sales support through design , engineering , testing , commissioning to site acceptance and after sales support .

#### Service Operation

The Service Operation headquarters are located in our facility in Milano.

Multiple types of systems are used to provide support to customers with a maintenance contract and we also hold copies of software for all the systems installed at sites world wide

#### Educational Services

Since effective training is a critical element in the success of an automation project, Foxboro, Triconex Educational Services are available to cater for all the customer's training requirements. Courses are available in the following disciplines:

Engineering Training - Maintenance Training  
- Operations Training:
