Who we are

App4Health is a **Digital Healthcare Startup**, born in Vivisol, a SOL Group company that provides homecare services for more than 400k patients from 30 years.

Through the website and the new APP now available, App4Health becomes the landmark within the health sector.
Working in collaboration with medical doctors, healthcare assistants and pharmacists, App4Health provides you a **faster and easier way to take care of your health**. At the same time, App4Health gives the chance to pharmacies and medical centers to increase their products and services offer.

Product description

App4Health offers a **Fast Booking** platform, an **E-shop** and an **Information Portal** about the main healthcare related topics, providing a full service for our wellness, prevention and care.

App4Health's APP

Thanks to our collaboration with pharmacies and to a research project, we developed a brand «reskinnable» app. Each pharmacy can reskin the app and entirely personalise it with its content.
