

ALIMENTI ZOOTECNICI

Spada Mangimi is a business that was born in 1972. We work on formulation, production and selling of farm animals. We produce feed and supplements for breeding animals and our strenght is the high specilization in dairy cows feeding.

NEW WAVE
TECHNOLOGY

ASSOLOMBARDA
Filiera Agroalimentare

The company has developed innovative methods based on the study of the mineral-metabolic equilibrium, conditions that bring the animals at a top level of health. That means longevity and the same time more productivity of dairy cows in order to improve milk quality and efficiency and consequently also the redditivity for the farmers.
